

## **Ladybug Game**

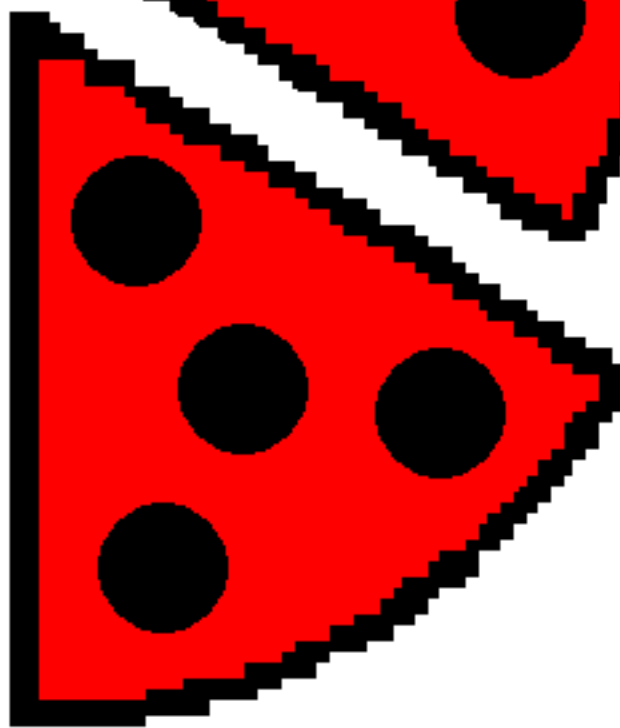

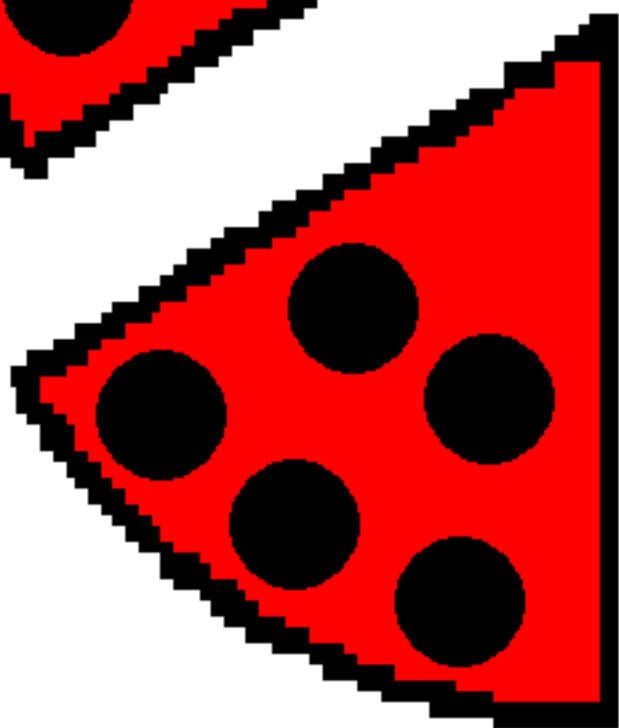

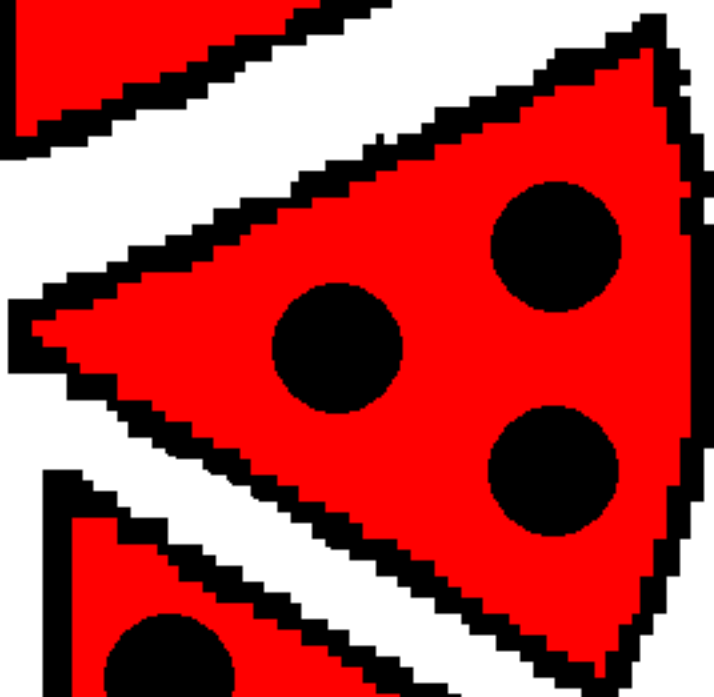

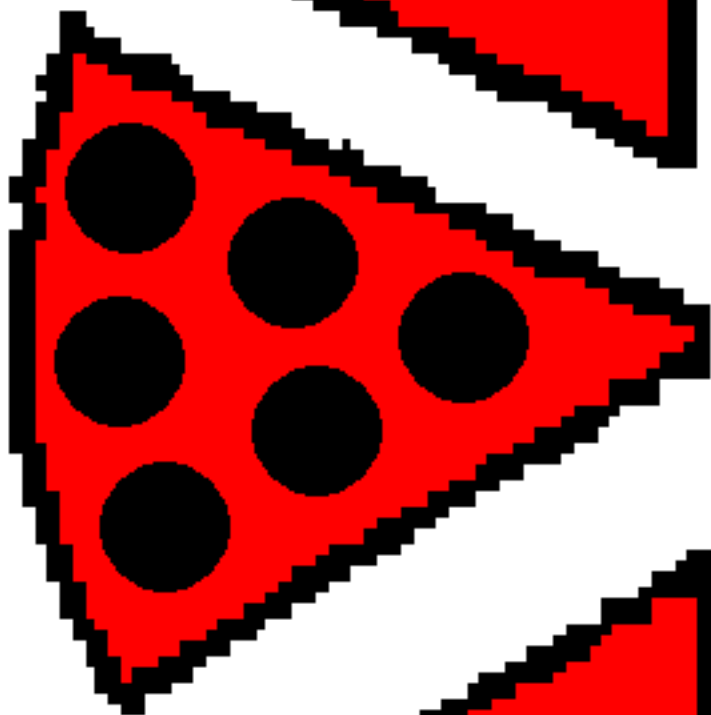

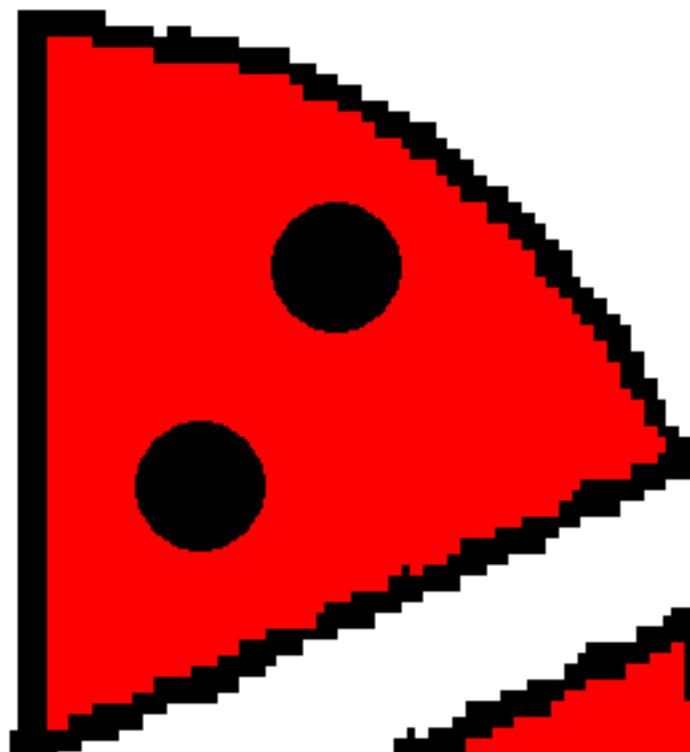

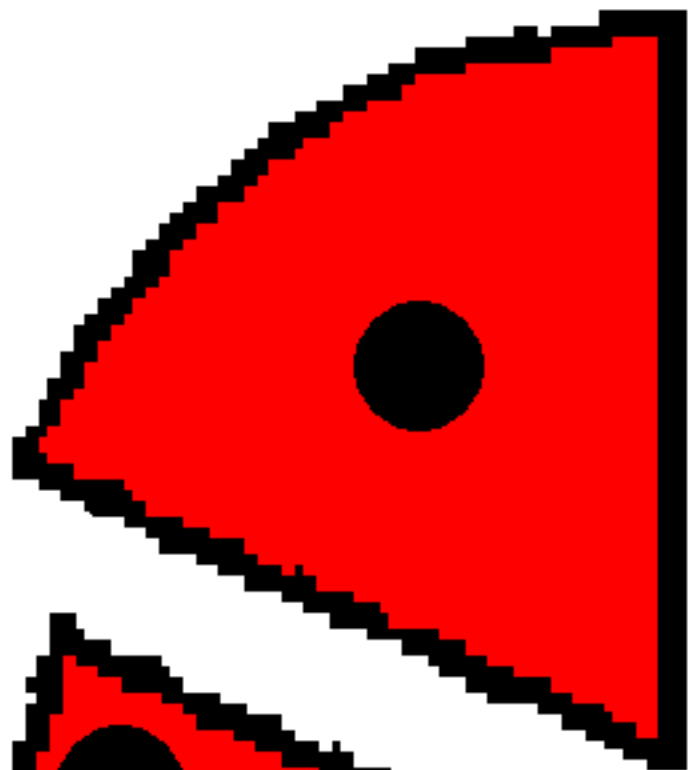

Print one gameboard and one piece board per player on card paper. Cut out the ladybug and the number pieces. Laminating will make the game more durable. You will need a die to play the game. Children choose which ladybug colour they would like; there are enough game boards for 3 children to play this game. Children take turns rolling the die, whatever number they get, they put that piece on their ladybug. If the number that comes up on the die is already on their game board, then they have to wait til their turn comes up again to retry. First one to complete their ladybug wins

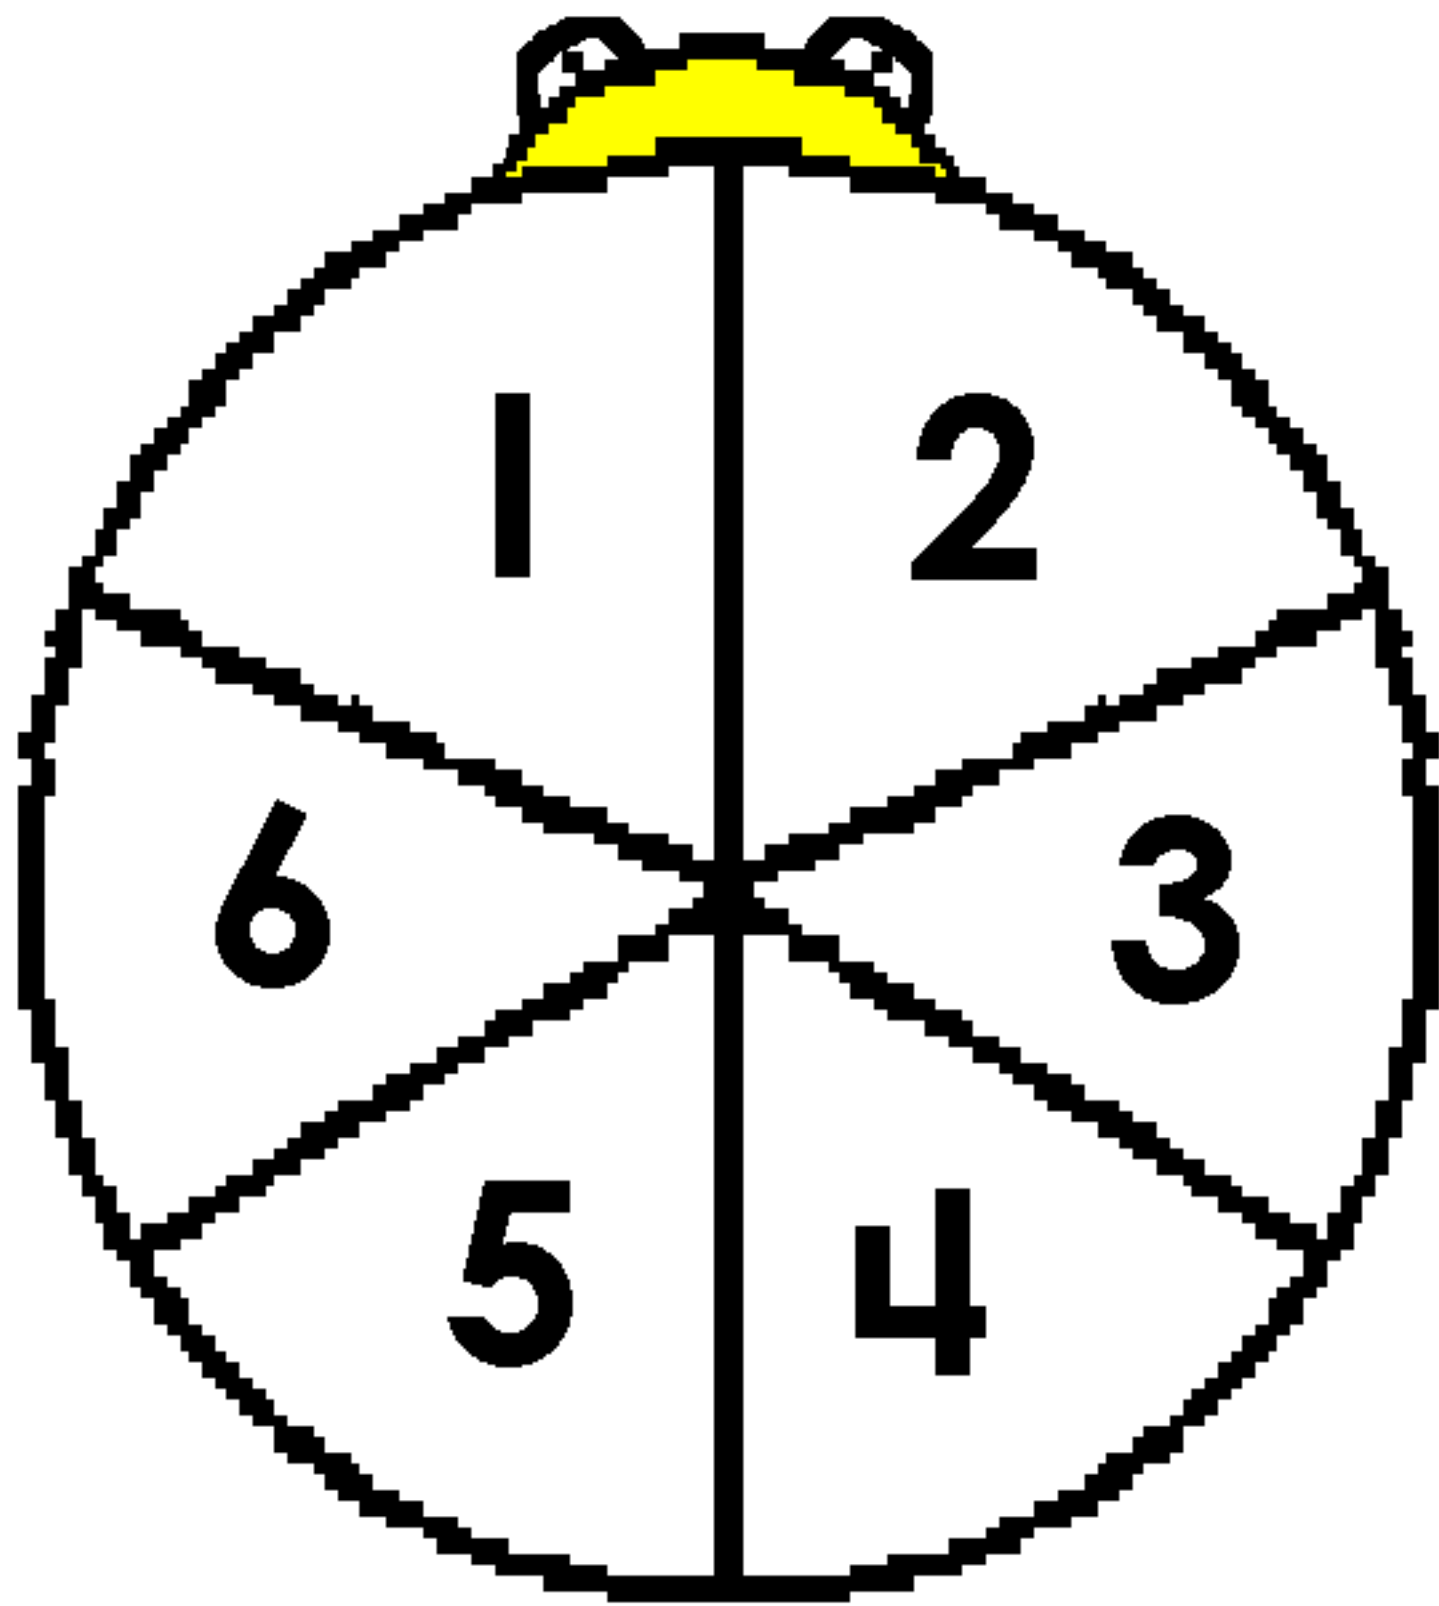

A colour and black & white version is included.
